

RANJITH KUMAR S

Software Developer | Team Lead

Chennai, India | ranjithkumar40679@gmail.com | +91 6374578351 | github.com/Ranjith3098

SUMMARY

Software developer and team lead with 3+ years of experience designing, building, and deploying web applications. Experienced in leading cross-functional development teams, owning end-to-end project delivery, and managing client relationships from requirements through go-live. Looking to bring strong technical and leadership skills to a growth-focused development role.

EXPERIENCE

Team Lead | Ethical Intelligent *Oct 2025 - Present*

- Lead and mentor a 6-developer team, owning task allocation, sprint timelines, and delivery quality across concurrent client projects.
- Directed a supermarket management system from requirements gathering through deployment, delivered on schedule with zero critical post-launch defects.
- Own server setup and deployment pipelines for team projects, improving release reliability and reducing deployment downtime.
- Conduct structured code reviews to enforce coding standards and consistency, raising overall code quality across the team.

Senior Software Developer | Craft Interactive Technology *Feb 2025 - Oct 2025*

- Built and maintained custom business applications on the Frappe/ERPNext framework for garment industry clients.
- Customized CRM, Buying, and Selling module workflows to match client-specific business processes, improving process fit and adoption.
- Delivered a Frappe integration with Ecuador's SRI tax authority system for client Protesca, enabling compliant e-invoicing.

Software Developer | Nxweb *Jun 2023 - Dec 2024*

- Translated client requirements into working software features, applying problem-solving skills across the full development cycle.
- Gathered and clarified requirements directly with clients, translating business needs into scoped technical solutions.
- Built and shipped functionality that directly addressed user needs, contributing to on-time project delivery.

KEY PROJECTS

- Supermarket Management System — led a 6-person team through full delivery: requirements, development, server setup, deployment, and code review.
- Biometric Integration — built biometric attendance/authentication integration within the Frappe framework.
- Machine Maintenance Application — developed a maintenance-tracking application on the Frappe framework.
- Garment Industry Applications — delivered custom Frappe applications for multiple clients, including Bmpk, Aaratex, Sri Ram Printers, Yamunatex, Yntex, and Zeemax.
- Ecuador SRI Integration — implemented tax-authority integration with Frappe for client Protesca.

SKILLS

Front-End / Back-End: HTML, CSS, JavaScript, Jinja, Python, SQL, Nginx, React.js, Kafka

Frameworks / Databases: Frappe, ERPNext, Django, MariaDB, Vue, React

Tools / OS: Git, GitHub, GitLab, Ubuntu, Linux, Windows

Frappe Server: Bench, Site Management, Server Configuration & Deployment, Frappe CLI

Server: Linux System Administration

Leadership: Team management, task delegation, code review, server deployment, client communication

EDUCATION

BE, Automobile Engineering

SSM Institute of Engineering and Technology, Dindigul | *Jun 2017 - Apr 2021*
